

Awareness & Internal Auditor Training on ISO 45001:2018 (Formerly OHSAS 18001:2007)

Course Overview

This course includes a detailed review of ISO45001:2015 (formerly OHSAS 18001:2007) standard, process mapping, auditing techniques, corrective action analysis and evaluation, reporting, and much more. It is the perfect class for beginners to auditing and the ISO standard. This is currently the most dynamic course available anywhere in the world, due to the progressive, hands-on approach.

Course Objective

- Interpret the requirements of ISO 45001
- Ensure the correct application of accepted audit protocols for OHSMS
- Plan and undertake internal audits
- Facilitate value-added auditing and reporting to aid enhanced system performance

Who Should attend the Course?

- Those wishing to implement an OHSM / SMS that have little in place, or are in the early stages of development of their OHSM / SMS
- Those wishing to update their OHSAS 18001 Occupational Health Safety Management systems / Safety Management Systems to the ISO 45001:2018 version in such a manner that it facilitates the opportunity for embracing other systems

Course Content

- Interpreting the standard with a clause-by-clause review of ISO 45001:2018.
- Auditing ISO 45001:2015 A clause-by-clause review of how to audit ISO 45001.
- Audit theory, tools and skills ? A discussion of how internal audits may be approached to add value to an organization. Also, detailed presentation and practice with focus on developing auditing skills in audit preparation, checklist development, document review, interviewing, observation and reporting.
