

IRCA certified Lead Auditor – OHS 45001 Training Course (IRCA- ISO 45001)

Course Overview

- The eight learning objectives describe in outline what delegates shall be able to do by the end of the course.
- Understand the scope and fields of application of the OH&S management systems and standards and where applicable, other criteria and standards against which an audit could be performed.
- Understand the techniques available, process and principles of risk assessment and their significance in the process of self-regulation for all OH&S requirements.
- Identify the requirements of the OH&S management system standards against which an audit is to be performed.
- Explain the differences between the OH&S management system standards and the international standards for Quality and Environmental Management Systems.
- Describe the roles and responsibilities of Auditors and Lead Auditors in the context of OH&S management systems audits.
- Explain the rationale supporting the implementation of OH&S management systems or the integration of OH&S requirements into existing management systems.
- Plan, prepare, perform and report both verbally and in writing an audit of the management and operation of an organization in accordance with the requirements of established relevant audit criteria.
- Collect and analyze evidence, exercising objectivity, and make and communicate decisions of the significance of observations made

Target Audience

- **Management Representatives, OHSAS/Safety Consultants.**
- **ISO / TQM consultants, Health and Safety consultants**
- **Fire & Safety officers.**
- **Personnel from Institutions / Companies aiming for and working towards Safety Certification**
- **Students / Job Seekers in Safety field / Career development.**

Course Format

- **Each day is divided into four sessions, two before lunch and two after lunch.**
- **The first session precedes the mid-morning break and the second follows mid morning break.**
- **The afternoon sessions are similarly divided.**
- **Folders are divided into sections, one section per module.**
- **All overheads and material given during the course will be provided in your folder.**
- **The overheads are presented on the left hand side of the page and commentary, where appropriate is provided, on the right hand side of the page.**
- **You will need to allow sufficient time to read and understand the notes which have been provided.**

Highlights

- **Training Programs are handled by Highly Experienced and IRCA Qualified Lead Auditors.**
- **The Batches once committed will not be cancelled**
- **3 Fully Equipped Training Halls available at Trichy to carry out Multi Program at the same time.**

Course Style

- All sessions are delegate interactive and delegate participation is encouraged. Delivery will include presentations by lecture, overhead and slide projection. There are numerous exercises and each activity is assessed as part of the overall candidature evaluation.
- A model factory will be used and wherever possible practical illustrations will be given. All course presenters will have experience of H&S design and implementation, and have some experience of H&S certification and assessment. A live audit in a host organization (or an audit role play) will take place on day 5 so as the delegates may demonstrate the skills learned and developed during the course

Expected Prior Knowledge
