

CONSASS AUDIT

- ConSASS means Construction Safety Audit Scoring System
- It is an audit tool which provides an independent assessment of the safety and health management system at a work site.
- ConSASS provides a profile of the development status and maturity level of each component of a work site's safety and health management system.
- As an assessment tool, it can be used for cross-comparison between work sites in relation to their effectiveness in managing workplace safety and health risks.

- To enhance the consistency in the auditing process and allow cross-comparison of work sites by having a unified assessment method in term of standardisation of audit checklist and adoption of a common audit scoring system.

- pre-audit liaison
