ISO 14001:2015

Environmental Management system (EMS)

DS DYNAMIC SAFETY PTE LTD

ISO 14001:2015 is an Environmental Management System (EMS) refers to the management of an organization's environmental programs in a comprehensive, systematic, planned and documented manner.

EMS Model

An EMS follows a Plan-Do-Check-Act Cycle or PDCA. The diagram shows the process of first developing an environmental policy, planning the EMS, and then implementing it. The process also includes checking the system and acting on it.

## Requirements of ISO 14001:2015

- *Environmental Policy, Aspects, and Impacts*
- *Legal and Other Requirements & Evaluations*
- *Objectives and Targets and Environmental Management Program*
- *Training, Awareness, and Competence*
- *Communication*
- *EMS Documentation & Control of Documents*
- *Operational Control & Emergency Preparedness & Response*
- *Monitoring and Measuring*
- *EMS Audit & Management Review*

Benefits of ISO 14001:2015

- *Cost savings through the reduction of electricity, water, gas, and fuels.*
- *Avoiding fines and penalties from not meeting environmental legislation.*
- *Reduction in insurance costs by demonstrating better risk management*
- *Improved overall performance and efficiency.*
- *Able to monitor and reflect (audit) your business and see which areas need intervention*
- *Better public perception of the organization, leading to improved sales*
