

Maintenance of Management system

Companies often lose momentum, focus, and commitment after achieving initial certification. The result is a scramble to prepare for Surveillance Audits, stress and anxiety during the Surveillance Audit, and an unplanned commitment of resources to deal with the aftermath.

Our ISO Maintenance Activities are,

- *Complete Customization & Set-Up*
- *Customer audit or third- party approval*
- *Routine consultancy for successful ISO surveillance/ recertification audit*
- *Annual contract and a monthly visit*
- *Internal audits*

Whatever your maintenance requirements, we are ready to offer you a solution.

Advantages

- *Reduction or elimination of costly time and training of internal auditors.*
- *Reduction of resources and cost needed to perform internal audits and effectively closeout resulting in corrective actions.*
- *Elimination of the stress, anxiety, and cost of preparing for, managing, and completing a registrar's Surveillance Audits.*
- *Minimal disruption of operations and internal resources.*
- *Expert assessments and advice through objectivity, experience, and independence of Pinnacle's experts.*
- *Continual evolution and improvement of your Business Management System.*
